DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-4, 7-9, and 12-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. The following claims are vague, indefinite, and awkwardly and confusingly worded.

i. The applicants arguments state the preamble reciting the floor edger in combination with the tool should be positively recited. The floor edger is merely an intended use. The claim should properly recite the combination of the tool and floor edger.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 7-9, and 12-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Shine (5577711).

Shine discloses a tool having (the preamble is not positively reciting the floor edger in combination with the tool) a body (28), a leading edge (the edge of

element 16), an angle gage (36 which forms a V-shaped frame), a pair of wheel setting surfaces (the tabs between 32 and 32 A)

In regard to the method claims 12-14, the method is merely the natural use of the claimed tool.

Allowable Subject Matter

3. The allowability of claim 4 has been withdrawn.

Response to Arguments

4. **Applicant's arguments filed 11/12/03 have been fully considered but they are not persuasive.**

5. **Applicant agree whether the preamble is claimed limitation.**

a. The preamble is not a recited limitation. However, the applicant appears to be arguing file wrapper stoppel. The applicant has stated that the preamble should be considered a limitation; therefore, the claim is not any further limited by clearly claiming it as a limitation. In fact it is vague because it is not clearly recited as a limitation as per applicants arguments.
